

Address: _____

We are currently in the process of updating our data base and are contacting all residents to ensure that we have the correct information on file. This information is very helpful in the event that we need to contact residents for reasons like water repairs, upcoming events, emergency info etc.

According to our files:

- 1) The telephone number we have on file is _____ and _____ . Are there any other numbers such as a cell phone, that you would like to add?

If so, # _____

- 2) We are showing _____ and _____ as residing in the home, is that correct? Are there any changes or additions?

- 3) Would you like to add an emergency contact to your file? If so,

Name: _____ Relationship to you: _____ Number: _____

- 4) Do you have any pets that we could add to our registry. This list is for internal purposes only, and is not supplied to the City.

Please return this form to the office or call the office with this information as soon as possible.
