Kenron Recreation Centre

Dementia Friendly Communities are a place where people living with dementia are understood and respected, supported and included, living healthy active lives in the community, and are contributing to society in ways that are meaningful.

Join Oasis in this second presentation on how to support people living with dementia, information about dementia, strategies to combat stigma, and resources. After completing this, your organization will formally be recognized as a Dementia Friendly Community Supporter.

Ask your Program Coordinator, Kurstin, for more information.
